In an offline directory, you can extract the contents of a bootable CD that contains only the ISO file using the Win32DiskImager utility. The Boot Add ISO File function of Win32DiskImager is what you need to use. You can use Win32DiskImager free for bootable CD-ROMs. Here's an example of a Windows XP image using Win32DiskImager in an offline directory: (function() { var f = d.getElementsByTagName(t, "div")[0], s = d.createElement("p"); d.body.appendChild(s); s.innerHTML = "Familia: " + o[0].sortName + " - Filial: " + o[1].name + ""; f.className = "left top"; s.appendChild(f); return false; })(); 82157476af
